	300 Minute AFRICA	12 month	\$0.99/min	7200 units	\$125	\$297

Standard Reload Authorization: Customer authorizes online and over-the-phone purchases of vouchers by any Authorized User on the account. By selecting a reload authorization above, the Customer agrees as follows: the customer authorizes the use of his/her credit card account for future reload voucher purchases to be applied to the customer's prepaid account(s). **DISCLAIMERS:** Outfitter Satellite has a maximum liability of \$100 per SIM (in the form of a store credit) if prepaid minutes on a SIM are allowed to expire due to clerical error on the part of Outfitter Satellite and no liability for lost minutes if the Customer's reload request is made less than 48 business hours before validity expiration. There is no guarantee that a prepaid account will not reach a zero balance before reloads occurs.

RELOADABLE GLOBAL PREPAID VOUCHERS (also called Regular Prepaid Vouchers): Prepaid SIM card validity is measured from the activation date if a nonzero balance is maintained on the card. If a zero balance remains on the card for 15 days, the SIM card becomes permanently inactive. Subsequent reload vouchers add validity to remaining units on SIM card relative to the current expiration date, except that there is a maximum validity of 24 months from the date of any given reload regardless of how many reload vouchers are applied on that date. Monthly call details are not available with this service. Basic Rate services are charged at 60 units per minute in 20 second increments. PSTN means public switched telephone number. Adding other types of vouchers such as the regional prepaid voucher to this account will forfeit any existing balance. Reloads can take 24 business hours from date of request.

RELOADABLE REGIONAL PREPAID SERVICES: The prepaid account and all unused prepaid usage will expire and be lost after the validity time indicated for the last voucher relative to the date that the voucher is applied to the account, unless a zero balance remains on the card for 15 days, in which the SIM card becomes permanently inactive. Call details are not available with this service. Basic Rate services are billed at 24 units per minute in 20 second increments. Origination of calls and SMS is restricted to the home zone of the regional prepaid service. Existing prepaid account balance will be lost if a regular prepaid voucher or a different type of regional prepaid voucher is loaded onto this account. Reloads can take 24 business hours from date of request.

NO REFUNDS: Customer agrees that purchase of prepaid vouchers is a non-refundable up-front purchase, and that after Outfitter Satellite applies a prepaid voucher to the Customer's account or otherwise electronically delivers the voucher to the Customer, that there is no refund for unused prepaid service or unused validity time. Undeliverable SMS messages from errors unrelated to the Iridium network such as problems with mail filters, mailbox overflows, or incorrect addresses remain billable and there will be no refund.

CALL TYPE	GLOBAL PREPAID	AFRICA	ALASKA-CANADA
Voice to PSTN	Basic Rate 1min=60units	Basic Rate 1min=24units	Basic Rate 1min=24units
